Forecast for Tuesday 07 Jun 2022

Weather: Largely cloudy through the early hours, but clear spells are increasingly likely by dawn. Some sunshine to begin the morning, however the cloud will soon build and this may produce a few heavy showers during the middle of the day. Thickening cloud during the evening with a chance of showery rain arriving later.

Chance of cloud-free hill tops above 600m: 40% increasing to 80% by midday.

Low cloud and visibility: Periods of cloud above 600-700m during the morning. This lifting above the summits by midday. A chance of brief patches forming around the summits during any showers. Generally good visibilities but locally moderate in any showers and locally poor or very poor in cloud.

Forecast for Wednesday 08 Jun 2022

Weather: Showery rain through the early hours with some heavy bursts possible. This clearing during the overnight period leaving a largely dry start to the morning. Sunny spells through Wednesday but scattered heavy showers breaking out with a low risk of thunder and hail. Breezy with gusty winds in and around the showers

Maximum wind: Westerly 20-25mph gusting 35-40mph at times.

Chance of cloud-free hill tops above 600m: 80%.

Low cloud and visibility: Periods of cloud above around 700m during the morning. Otherwise, occasional patches above 950m with brief patches down to 850m during the showers. Generally excellent visibilities with distant hills clear to see but briefly poor in heavy showers and locally very poor in cloud.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 19 Celsius.
At 600m: Plus 11 Celsius.
Freezing level: Above the summits.
